

## HALDRUP LT-15

Laboratory thresher and cleaner

The Haldrup LT-15 is a laboratory thresher for use with individual plants, bundles and small plots, compatible for cereals as well as vegetables.

His solid and concise construction allows a rapid and simple threshing operation of all kind of crops with good visibility on the threshing process.

Stepless continuous wind speed adjustment gives a maximum cleaning of the threshed crop.

The LT-15 is specially made for small grains ensuring a perfect separation of grain, dust and chaff.
