

## HALDRUP LT-20

Laboratory thresher and cleaner

The Haldrup LT-20 is a laboratory thresher for use with individual plants, bundles and small plots, compatible for cereals as well as vegetables. Up to 10 plants could be threshed in one operation.

His solid and concise construction allows a rapid and simple threshing operation of all kind of crops with good visibility on the threshing process.

Thanks to his secure and specific corn feeding table construction no grain loss during bag opening (especially good for rape).

Stepless continuous wind speed adjustment gives a maximum cleaning of the threshed crop.

The LT-20 is specially made for small grains ensuring a perfect separation of grain, dust and chaff.

### COMPATIBLE PLANTS

### TECHNICAL DETAILS

Current supply	AC voltage 230 V	5 A	50 Hz
Thresher	Electronic speed regulation	0.55 kW from 50 to 1400 r / min	Diameter 180 mm Width 100 mm
Cleaning	Air blowing system	Blower 400 W from 50 to 100 % column 170 mm x 170mm	Dust + chaff in cotton bag at the end of the blower
Column	Cleaning process in the air column		
Sieve 1 Drawer 2 Bag 3	Grain reception Drip cup Dust + chaff	Granulation 1*1 mm Metal drawer Cotton bag	Granulation 0.5*0.5 mm
Displacement	4 feet with foot fixing- break		
Dimension Dimension base plate Weight	Length 915 mm Length 720 mm 95 kg	Width 1360 mm Width 790 mm	Height 1220 mm
